

TES Gifted and Talented Newsletter

Events and Opportunities

This semester, students have studied various content such as art history, famous musicians, grammar, the American Revolution, the Roman Empire, algebra, and volume to name a few. Students have utilized Google Classroom on the days I was not at TES and can continue to access it this summer to review content.

Upcoming Opportunities

We have an upcoming field trip to the Kentucky Science Center on May 29. Students will be able to participate in a lab experiment and watch a 3D movie in the IMAX theater as well as visit the exhibits.

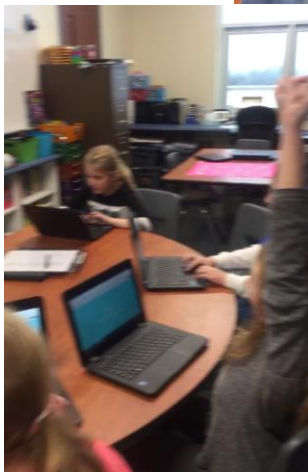

Remind

If you have not signed up for Remind, text @bprosch to 81010 and you can receive notifications about upcoming events and opportunities!

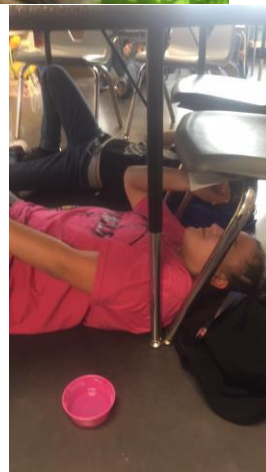

As always, feel free to call or email if you have any questions or if there is anything I can do for you. Have a great summer!

Thanks,
Brandie Prosch
