

Dear Parents,

Below you will find the Good Faith Checklist. This is a list of expectations for each 3rd-5th grade student to work towards during our state testing. They have used this checklist before in classroom situations. K-2nd grade students will also be giving their good faith effort through helping maintain a quiet school environment during testing.

We understand that students won't know the answers to every question, but we do expect them to be putting forth their best effort. This list will be used to help determine who is making a good faith effort on their assessment. After testing is completed for all we will be recognizing students who are able to maintain an average of 5 out of 6 checks each testing day. Please help us to encourage your child to do their best on the test so they will not only be able to participate in Good Faith Effort day, but also feel a sense of accomplishment.

Good Faith Day - Thursday, May 26th - is sure to be fun for those that put forth their best effort! We will plan fun event time, and there will also be a special V.I.P. reward for students that have perfect attendance on testing days, in addition to their good faith effort for all testing days.

Thank you,
Faculty and Staff of TES

On the back you will find a copy of the testing schedule for the testing window of May 10th through 18th. Don't forget to check the schedule for the 'dress up' theme on each day of testing. ☺

Attendance on testing days is so important. It avoids the stress students feel when additional make up times have to be scheduled. We really appreciate your help with this, as well as making sure they eat a good breakfast and get a good night's sleep. Students in 3rd and 4th grade with proficient scores earn a silver medal, and distinguished scores earn a gold medal for next year's Opening Ceremony. We can't wait to see how many medals are handed out next year, and which incoming 5th graders will be taking part in our torch relay for having a distinguished score.

We hope to be able to celebrate our Proficient and Distinguished scores with water balloons at a cookout next year (we do invite our 6th graders back for the water balloons and cook out).

PLEASE HELP REMIND YOUR CHILD TO DO THEIR BEST ON THE TEST!
 They may also wear ONE of their medals during testing (received during Olympic Ceremony -Monday, May 9th
